

GET THE HELP YOU NEED WHEN YOU NEED IT MOST

Our Behavioral Centers of Excellence Program* offers you quality, in-network, affordable care

There is a wide range of behavioral health and substance use hospital and residential treatment locations across the country. Selecting the right health care facility is an important decision, but knowing which one to choose can be overwhelming, especially when you or a loved one is in critical, immediate need of care. That's why we have developed our Centers of Excellence program – to help our customers in their greatest time of need.

We have identified in-network facilities** that provide quality, cost-effective care to help you make this important decision.

We select facilities based on data, not advertising. For example, our studies show that out-of-network substance use treatment facilities have a 71% higher readmission rate than our Substance Use Centers of Excellence locations.***

With nationwide locations for adult mental health, child and adolescent mental health, eating disorders and substance use, help is available and closer than you think.

* The Cigna Center of Excellence designation is a partial assessment of quality and cost-efficiency and should not be the only basis for decision-making (as such measures have a risk of error). Individuals are encouraged to consider all relevant factors and talk with their physician about selecting a health care facility. Quality designations and ratings found in Cigna's online provider directories are not a guarantee of the quality of care that will be provided to individual patients. Providers are solely responsible for any treatment provided and are not agents of Cigna.

** All participating facilities provide an inpatient or residential level of care with a step down to a partial hospitalization (PHP) or intensive outpatient program (IOP), which are subject to prior authorization. **The following services are generally not covered:** Services considered to be experimental, investigational and unproven, and nonmedical ancillary services including, but not limited to, educational services, custodial services, vocational rehabilitation and counseling services, religious counseling, work-hardening programs and driver safety programs.
